New Online Comparison Service for Will Writing

ULS Technology plc (AIM:ULS), the provider of online technology platforms for the UK conveyancing and financial intermediary markets, announces it has launched its Will Writing comparison and introduction service through two major partners.

The new exclusive agreements, one with a leading property group and the other with a leading mortgage network, will allow more than 400 mortgage advisers to compare will writing and other estate planning services through ULS for both existing and new customers.

Commenting on this new launch, ULS' CEO Ben Thompson said: "These two new agreements demonstrate our ability to launch new products into the UK's leading property and mortgage groups. Will Writing is complementary to what homebuyers and movers need and this represents a further broadening of our income stream into other adjacent services. We look forward to launching this new product with other property related businesses in the near future."
