**About ULS Technology:**

ULS Technology (<https://www.ulstechnology.com>) was admitted to AIM in July 2014. Its mission is to make the home-moving process better for everyone. To date this has mainly been achieved by presenting the consumer, primarily via introducers, with a range of quality conveyancers to choose from at competitive prices via easy-to-use technology.

ULS is now going a step further, helping customers by making it easier to buy, sell and own a home through the leading DigitalMove property platform (<https://digitalmove.co.uk>).
